

Agriculture and Rural Business

Streets traces its roots back to 1907 and has been involved in agriculture since then. The firm caters for the whole range of farming enterprises, landed estate as well as for other rural businesses.

We have a dedicated agricultural and rural business team, consisting of partners, many with family agricultural connections and experience. We aim to provide clients with:

- Sound knowledge and understanding of agriculture and rural business issues
- An appreciation of the need to balance a way of life with business goals

Agricultural and rural businesses continue to face an ever-changing business environment and operation conditions. Recent changes in subsidy regime and increasing focus on the environment, consumers and animal and plant husbandry make it essential that the impact of these changes is properly considered by all those reliant on agriculture for their income and a way of life.

To provide collective and considered advice, our team works closely with other professionals such as land agents, agronomists and specialist agricultural bank managers and solicitors where appropriate.
